Cenepa War (1995)

This brief conflict was fought between Peru and Ecuador in 1995, over the control of the Canepa valley on Peruvian territory. There had been earlier military confrontations over this area between the two nations, one in 1941 (the Ecuadorian-Peruvian War), resulting in a border treaty later disagreed with by Ecuador, and another brief confrontation in 1981. The war was initiated by Ecuadorian outposts at the Cenepa River that were discovered by a Peruvian patrol. Peru claimed that the existence of these outposts constituted a violation of Peruvian territory and gave Ecuador an ultimatum to withdraw its patrols or they would be dislodged by force. The deadline passed and Peruvian troops were deployed to the area to remove the Ecuadorian posts, followed by a general mobilization by both sides. Heavy air and ground attack were carried out from the end of January until 28 February when a bilateral ceasefire agreement was signed. In March 1995, the Military Observer Mission to Ecuador and Peru came to Canepa, which was later turned into a demilitarized zone, to supervise the separation of forces. Furthermore, both governments negotiated the final demarcation of the border, resulting in the Rio Protocol, signed 26 October 1998.

Peace process	Ecuador-Peru border dispute peace process
Parties	Ecuador, Peru, as the addressees of the document

Third parties	Signing for the four Guarantor Countries (Argentina, Brazil, Chile, and USA): Carlos Saul Menem Fernando Henrique Cardoso Eduardo Frei Ruiz-Tagle William Clinton
Description	This document is the final proposal of the Guarantor Countries regarding the setting of a Common Land Border between Ecuador and Peru in the disputed area. After encountering difficulties in the negotiations, Ecuador and Peru asked the Guarantor Countries to propose a resolution, and these countries agreed to do so, but requested that both countries (incl. the parliaments) commit in advance to the solution the Guarantor Countries would propose.

Border delimitation Page 2, 1.

In light of disagreement between the parties on the views and opinions issued by the experts appointed by the Guarantor Countries, in line with the Brasilia Declaration timetable on the three items submitted for consideration, the Guarantor Countries of the Rio de Janeiro Protocol believe that such views are part of the implementation of the Rio de Janeiro Protocol and under the judgment of the Arbitrator Braz Dias de Aguiar, and that the parties must therefore proceed to finalize these borders in the manner established by these views and opinions. For this purpose, the annexed maps specify the coordinates of the landmarks to be erected.

Cross-border provision

Page 2, 2.

In accordance with the attached sketch, the Peruvian government will give the Ecuadorian government an area of one square kilometre, in the centre of which is the point known as Tiwinza that Ecuador provided to the MOMEPE.

Page 2, 3.

The transfer will be made free of charge through a public deed held by the corresponding entities of Peru and Ecuador, which will be signed when the comprehensive and lasting agreement enters into effect. This transfer will not affect sovereignty. The indicated property will not be seized by the Government of Peru.

Page 2, 4.

The Government of Ecuador, as owner, will have the actual rights that they entrust to the Peruvian National Private Law, except the right to transfer. The use that Ecuador makes of this territory will be in line with the conservation rules applicable to the area in which it is located.

Page 2, 5.

The Government of Ecuador will not have police or military within this area, or perform any related activities, except commemorative acts previously coordinated with the Government of Peru.

Page 2, 6.

Ecuadorian nationals may move freely on a single public motorised road, up to five meters wide, that connects the area with Ecuador, that must be available thirty months after the comprehensive and lasting agreement takes effect, and maintained by Peru with the goal of having a more direct and accessible route to Ecuador. The Technical Committee, referred to in paragraph 9, will be responsible for determining the path of this road. With this goal, respective border control posts will be established on both sides of the border. Given the ecological character of the area, you will not be able to move from one country to another with any kind of weapon.

Page 2, 7.

Each party will, within its territory and under its national law, decide upon an area of ecological protection under the sovereignty and jurisdiction of the State concerned, in the areas and perimeters that are outlined in the attached sketch. Both ecological zones will have the same name and will be adjacent and have a section of overlapping border.

Page 2, 8.

Members of the region's native communities can move freely between the two ecological zones.

Page 2, 9.

The administration of each of the zones will be in charge of competent bodies specialising in the respective country, who will coordinate among themselves through a Peru-Ecuadorian Technical Committee to instruct private, non-profit entities, national and/or international, specialized in conservation and management of natural resources, to perform the necessary studies and to collaborate in the management of environmental resources, so as to ensure their proper conservation.

Page 2, 10.

The respective national police and park ranger authorities will be responsible for the security of the ecological zones. The border posts of each party in these areas will be in the charge of police units and, given the nature of ecological protection of these areas, new military posts will not be installed within their limits.
