Local agreement properties

Process type Isolated example

Rationale Although similar agreements had been signed as other safe areas had been captured (for example, the agreement between Rupert Smith and Ratko Mladic), there is no publically-available evidence which suggests that agreements had been reached between these parties before, or in relation to Zepa. Eyewitness accounts suggest that this agreement was reached independently of a formal process.

Is there a documented link to a national peace process? Yes

Link to national process: articulated rationale There is no stated link to the national peace process in the agreement. However, witness accounts submitted to the ICTY suggest that this agreement was reached independently of concurrent attempts being made by high ranking UN staff to reach an agreement on demilitarising Zepa to prevent it being overrun, and the points made in the agreement contradict proposals made by national-level actors to resolve the crisis. Therefore the link to the national process is that this agreement was made in contradiction of central attempts to reach an agreement on the area and issue.
